

COLLABORATING FOR ETHICAL AND EFFECTIVE PUBLICATION PRACTICES

2015 ASIA PACIFIC MEETINGS OF ISMPP

2015 August 30 • Beijing, China
2015 September 2 • Tokyo, Japan

WELCOME

Dear Colleagues,

Medical publications from the Asia Pacific region are increasing . . . and coming under intense scrutiny. How can we enhance the speed, quality, and influence of these publications? Proven and practical solutions will be provided at the Asia Pacific Meetings hosted by The International Society for Medical Publication Professionals (ISMPP). The theme of this year's Meetings is *"Collaborating for Ethical and Effective Publication Practices"* and the program is enclosed.

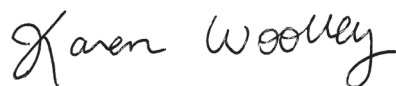

The faculty includes **international and regional leaders** from medical journals, academia, government, and the healthcare industry (medical affairs, clinical, and publication professionals). The program will offer small group workshops, roundtables, and facilitated Q&A sessions. There will be many opportunities for interaction and networking.

The Asia Pacific Meetings are ideal for individuals from medical affairs (pharma, biotech, and medical device); academia and government; clinical research; and for editors, publishers, and medical writers.

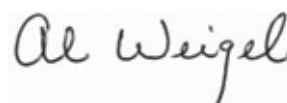

In addition to understanding the evolving medical publication and clinical trial landscape, you will gain insights into regional and international best practices. Most importantly, as the recognized professional non-profit association representing individuals responsible for medical publication planning, ISMPP will provide you with the unique opportunity to contribute to their future efforts in the Asia Pacific region.

We look forward to seeing you in Beijing or Tokyo!

Sincerely,

Professor Karen Woolley, BHMS (Ed) Hons PhD, ISMPP CMPP™

ANNOUNCEMENT

ISMPP (International Society for Medical Publication Professionals) is the recognized professional non-profit association representing individuals responsible for medical publication planning and development. Our educational efforts are scientifically based and highly valued throughout the field and among all stakeholders involved in the publication of medical research. In the spirit of advocacy and outreach, we offer discounted membership options ensuring that all medical publication professionals can benefit from access to our educational platform. ISMPP'S mission is to advance the profession globally through:

- Enhanced integrity and transparency in medical publications
- Improved standards and best practices
- Education, advocacy, and professional collaborations

We are delighted to announce details for the 2015 Asia Pacific Meetings of ISMPP, which will be held at two locations: The Sofitel Wanda Hotel in Beijing, China, on 2015 August 30, and the Hilton Tokyo in Tokyo, Japan, on 2015 September 2.

The outstanding roster of faculty includes from academia, the government, non-profit associations, and from the pharmaceutical, medical publication and communications, and publishing industries. ISMPP hopes to attract a substantial number of delegates from the region to this inaugural Asia Pacific event, which represents a major milestone in ISMPP's strategic plans for the region and is consistent with the society's mission to advance the profession globally through education, advocacy, and professional collaboration.

This brochure covers information about the meeting program and venue, and provides details on how to register and on how to serve as an exhibitor and/or sponsor of what will be the premier meeting for publication professionals who work in the Asia Pacific region.
