Accessibility Checklist

Posters

✔ Larger images and text

✔ Reduce visual clutter

✔ Plain language

✔ Clear structure and reading order

✔ Include links to the audio summary and online version of the poster

✔ Use high color contrast between text and background

✔ Use clear labeling to distinguish groups instead of relying solely on color

Oral Presentations

✔ Slides available in advance

✔ Recording available after the talk

✔ Accurate captions or transcript

✔ Provide verbal explanations of images

✔ Balance larger images with enough text to help the audience follow along

Conference Spaces

✔ Provide quality virtual options

✔ Wider spaces between posters and improved mobility access

✔ More seating and quiet spaces

✔ Better acoustics

✔ Provide microphones for presenters and audience questions

✔ Large signage, braille options

✔ Build in accessibility from the beginning, not the last minute
